ALCo C425: Locomotive Roster

<http://crcyc.railfan.net/>

Updated: 12-18-03

Conrail inherited a total of 41 C425's from the Penn Central. 31 units were former Pennsylvania Railroad units, while 10 were former New Haven. They were assigned to series CR 2416-2459. As of October 1979, units still on the roster were renumbered into the 5060-5088 series to make way for new locomotive arrivals; however, Conrail retired some of the units before they could be renumbered.

The roster below is comprehensive for Conrail between April 1976 and the last unit's retirement in the early 1980s. The roster contains all predecessor units Conrail inherited, plus it lists retirement dates when available. This roster is a compilation of information from *Diesel Era* (Sept/Oct 1998), CR Locomotive Data books, and other sources.
