EMD GP9: Locomotive Roster

<http://crcyc.railfan.net/>

Updated: 12-21-03

Conrail inherited their vast fleet of GP9's from the Penn Central, Erie Lackawanna, and Lehigh Valley. PC contributed over 300 units. In the 1970s Conrail began rebuilding their GP9's into improved GP10's. More information will be forthcoming about these locomotives.

The roster below is comprehensive for these units between April 1976 and the retirement of the last unit, and contains all predecessor units of the locomotive class that Conrail inherited. If numbers are missing from the roster, Conrail intentionally left them open. It does not contain retirement dates and dispositions due to their complex nature for this class. If you're interested in dispositions and retirements, see Railspot.com, which attempts to track such information for various railroads and locomotives. All of the units were retired prior to June 1999. If you happen to spot an error in the roster or have additional information, please contact me.

Roster Notes:

1. Slot on 4-8-76 Conrail roster never contained a locomotive, which other sources confirm, therefore number is left vacant on this roster as well.
2. Slot on 4-8-76 Conrail roster is vacant, though Railspot does contain the listed locomotive as carrying this Conrail number, therefore number is included on this roster. Cross-referencing of other predecessor rosters supports this as well.
3. Though listed on Conrail's 4-8-76 roster, this number never contained an actual predecessor locomotive. The numbers were eventually filled with GP10's.
