EMD MP15DC: Comprehensive Locomotive Roster

<http://crcyc.railfan.net/>

Updated: 9-2-16

In 1974, the Reading Company began leasing 10 MP15DC's from EMD and passed them to Conrail in 1976. These units were built in December 1974 and proved to be highly reliable, powered with EMD's supercharged V-12 645 prime mover that produced 1,500hp. At the end of the MP15DC's lease in December 1989, Conrail returned them to EMD. From there they were sold off to other railroads and continue running well into the 2010's

Unit #	Former	Built #	Retired	First Disposition
CR 9621	RDG 2771	12/74 74641-1	12/31/89	to BDPR 9621
CR 9622	RDG 2772	12/74 74641-2	12/31/89	to BDPR 9622
CR 9623	RDG 2773	12/74 74641-3	12/31/89	to MRLX 9623
